4. Summary of the finance's internal approach to assess the adequacy of its capital to support current and future activities, if applicable:

Shree Investment and Finance follows the Internal Capital Adequacy Assessment Process (ICAAP) and Risk Management Guideline while deciding on any business. It covers qualitative and quantitative information on risk capital adequacy assessment made by the management along with capital plan for the future business growth expected by the finance and meet the pillar I and pillar II risk to which the finance is exposed to.

The committees like Audit Committee, Risk Management Committee review the business and risk periodically and take necessary care of stress test result, return and capital in a sustainable manner. The finance has setup Assets Liability Management Committee to manage interest rate risk, liquidity risk, exchange risk, market risk etc. The finance perform gap analysis of its Assets and Liabilities to manage the liquidity risk. The finance consider the capital adequacy requirement pursuant to the provision set by Nepal Rastra Bank. The finance is well capitalized and able to maintain the required capital through internal generation and equally through capital market if needed.

5. Risk Management Function

The Shree Investment and Finance Ltd is vigilant to the risk factor and has adequate systems/procedures to assess the risk associated with day to day business. The finance takes risk considering the risk appetite of the finance and after assessment of strength and weaknesses in the internal and external environment. Periodic review are done in order to explore every possibility to gain insight on various risk factors and in order to find the best way to mitigate the risk associated.
